

To request a Time Extension (TE) or Alternative Diversion Requirement (ADR), please complete and sign this request sheet and return it to your Office of Local Assistance (OLA) representative at the address below, along with any additional information requested by OLA staff. When all documentation has been received, your OLA representative will work with you to prepare for your appearance before the Board. If you have any questions about this process, please call (916) 341-6199 to be connected to your OLA representative.

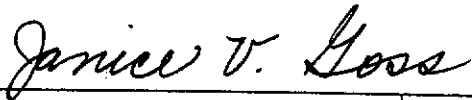

Mail completed documents to:

California Integrated Waste Management Board
Office of Local Assistance, (MS 25)
1001 I Street
PO Box 4025
Sacramento CA 95812-4025

General Instructions:

For a Time Extension complete Sections I, II, III-A, IV-A, and V.

For an Alternative Diversion Requirement complete Sections I, II, III-B, IV-B and V.

Section I: Jurisdiction Information and Certification <i>All respondents must complete this section.</i>			
I certify under penalty of perjury that the information in this document is true and correct to the best of my knowledge, and that I am authorized to make this certification on behalf of:			
Jurisdiction Name County of Orange - Unincorporated		County Orange	
Authorized Signature 		Title Director, Integrated Waste Management Department

Section II—Cover Sheet

This cover sheet is to be completed for each Time Extension (TE) or Alternative Diversion Requirement (ADR) requested.

1. Eligibility

Has your jurisdiction filed its Source Reduction and Recycling Element, Household Hazardous Waste Element, and Nondisposal Facility Element with the Board (must have been filed by July 1, 1998 if you are requesting an ADR)?

☐ No. If no, stop; not eligible for a TE or ADR.

☒ Yes. If yes, then eligible for a TE or ADR.

2. Specific Request and Length of Request

Please specify the request desired.

☐ Time Extension Request

Specific years requested _

Is this a second request? ☐ No ☐ Yes Specific years requested. _

(Note: Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☒ Alternative Diversion Requirement Request (*Not allowed for Regional Agencies*).

Specific ADR requested _18_%, for the years_1999 & 2000_.

Is this a second ADR request? ☒ No ☐ Yes Specific ADR requested _% , for the years _

(Note: Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

N/A

2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.

N/A

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

N/A

4. Provide any additional relevant information that supports the request.

N/A

Section IIIB—ALTERNATIVE DIVERSION REQUIREMENT

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's efforts in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIB-1.).

1. Why does your jurisdiction need and Alternative Diversion Requirement? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

See attached response.

2. Why is your jurisdiction requesting an Alternative Diversion Requirement in lieu of a Time Extension?

See attached response.

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

See attached response.

4. Describe any relevant circumstances in the jurisdiction that contribute to the need for an ADR. Provide any relevant information that supports the request.

See attached response.

**County of Orange Unincorporated
Alternative Diversion Requirement Application
Section IIIB**

- 1. (III-B - 1) Why does your jurisdiction need an ADR? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

The County of Orange is requesting an Alternative Diversion Requirement (ADR) for the unincorporated area of the county. The unincorporated area (County) completed and implemented its SRRE in compliance with state mandates. In the early stages of implementation, the programs resulted in 40 percent diversion rate for 1995. Since that time, the County programs have expanded significantly, yet the state calculated diversion rate has dropped consistently each year. The diversion rate calculated for the County years 1999 and 2000 is 18 percent. This steady and significant decrease in the diversion rate contradicts what the County knows to be true about the successes of its recycling and source reduction programs.

The County does not accept that the diversion rate accurately reflects the programs' effectiveness. The programs are strong, stable and have been steadily expanded since their first implementation. They are programs that draw on the experience of state CIWMB, nation-wide recycling experts and local waste haulers. The programs are tailored to the unique demographic and geographic conditions of the County, and are reviewed regularly to monitor their progress. Moreover, they are consistent and in-line with neighboring jurisdictions, many of which are meeting or exceeding the state mandated diversion rate.

The County service area is unique and requires special consideration. An area that served a population of 227,425 in 1990, has now decreased by 26 percent to serving 166,800 due to recent annexations and incorporations. Much of the remaining area is rural in nature; mountainous areas, with difficult to navigate roads and by-ways. Additionally, the County service areas are literally jurisdictional islands, surrounded by neighboring cities. The service areas are divided into nine franchise areas, yet even those franchise areas have service islands orphaned in the middle of one or more neighboring jurisdiction (see attached map). Serving these areas requires a unique and individual plan for each of the franchise areas given their differing geographic and demographic needs.

Despite the challenges inherent to implementing recycling and diversion programs in such diverse areas, the County is committed to the success of its programs and achieving the goal of diverting 50 percent of the wastestream. The County maintains that the existing programs take the jurisdiction well towards that goal; progress that is not reflected by the 18 percent reported diversion rate.

It is the County's contention that the current disposal reporting system is flawed, and reflects an inaccurate picture of the County's progress towards the State's goals. The County does not believe the programs are performing below expectation, but rather their successes are not being captured. These misrepresented diversion numbers are further impacted by the County's designation (in its regional role) as a "host city" for the allocation of unaccounted waste. This adds to the County's disposal tonnages, further distorting the results of the recycling and source reduction programs in the unincorporated area. These tonnages are also inflated by the presence of illegal waste entering the landfill disposal system from out-of-County sources.

To support the contention that the current diversion calculations are inaccurate, the County is conducting a Self-Haul Waste Characterization Study to further demonstrate the success of its programs and the tonnages that are truly attributable to the unincorporated program area. Additionally, the County is in the process of developing a new disposal tracking system that is automated and will systematically account for the origin of waste. The County is putting new procedures in place to detect non-authorized out-of-county waste entering into the system, and the County is submitting a request for a new 2002 base-year in 2003. After these measures are taken, if additional or expanded programs are deemed necessary, the County will implement those programs as a further demonstration of its intent to comply with State mandates.

The County intends to demonstrate the inaccuracy in the disposal tracking system and recommend/implement a reporting system that truly captures the progress and success of the programs. While work towards this goal is proceeding, the County is requesting an ADR to demonstrate our good faith effort and our desire to be in compliance with state guidelines.

2. (III-B – 2) Why is your jurisdiction requesting an ADR in lieu of a Time Extension?

The County does not feel that this is an issue of time. The programs in place are not under-performing; they are solid programs designed specifically for their target demographic. Rather, it is the diversion reporting system, the base-year data and other related issues that create the flawed diversion results. Until these matters are addressed, even the most aggressive diversion programs would not be able to comply with state mandates. The County has finite resources to allocate to guarantee that state mandates are met. These resources must be used as wisely as possible to ensure the intent of the mandate is achieved and that the spirit of the law is satisfied.

Rather than spending time implementing expanded programs that would be misrepresented by the same reporting system, the County proposes an ADR to

document the currently reported diversion rate, and to focus available resources and efforts on investigating and developing an accurate reporting system.

3. (III-B – 3) Describe your jurisdiction's Good Faith Efforts to implement the programs in the SRRE.

As a local jurisdiction, Orange County has done a thorough job in implementing its SRRE. The major wastestreams are captured through curbside recycling, curbside green waste programs, and salvage/debris recovery programs. However, the County has not exclusively focused on the major portions of the wastestream and their diversion programs. Instead, the County's good faith efforts extend much further to a comprehensive network of activities and programs. The original SRRE approach was implemented and then refined and improved in subsequent years based on the nature of the service area. Examples of the county's efforts include the following with detailed descriptions of the programs contained in Section IVB.

Source Reduction

- Xeriscaping/Grasscycling
- Backyard and Onsite Composting/Mulching
- Business Waste Reduction Programs
- Procurement Policies and Practices
- Government Source Reduction Programs
- Material Exchange/Thrift Shops

Recycling

- Curbside Residential
- Curbside Residential Greenwaste
- Residential Buy-Back
- Commercial Self-Haul Greenwaste
- Food Waste Composting
- School Recycling Programs
- Special collections seasonal (regular)
- Special collections events
- Special waste materials
 - White Goods
 - Scrap Metal
 - Concrete/Asphalt/Rubble

Public Education

- Electronic
- Print
- Outreach
- Schools

Policy Incentive

- Economic Incentives

Facility Recovery

- Landfill Salvage
- Alternative Daily Cover
- Asphalt re-use as "wet-deck area" and roads
- Erosion control

Transformation

- Tires

Household Hazardous Waste Element (HHWE)

- Permanent Facilities
- Waste Exchange
- Education Programs
- Collection events for remote areas
- Permanent CRT Collection Program

4. (III-B – 4) Describe any relevant circumstances in the jurisdiction that contribute to the need for an ADR. Provide any relevant information that supports the request.

In a county of nearly three million people, the unincorporated area has 166,800 residents representing only six percent of the total population. Conversely, the unincorporated area covers 320 square miles, representing 40 percent of Orange County's land area (2002 Orange County Progress Report, Orange County Center for Demographics). While the county's service population is shrinking annually due to annexations and incorporations, the remaining customers are spread throughout a large geographic area, much of which is rural and mountainous in nature. Even the areas that are not difficult to service due to access considerations prove to be challenging to service in other ways. Planning recycling programs and services for small, pocket communities does not allow the County to as easily provide the efficiencies that come with larger and more broad-scale programs.

These non-contiguous service areas have significantly varied demographic and geographic needs, which require a patchwork of programs to service the unincorporated population.

Despite these issues, the county knows its programs are successful. They have been planned carefully, implemented systematically, monitored closely and revised based on the needs of the service area. Residents have received the programs enthusiastically and are using the programs appropriately. The practices in place mirror neighboring communities, most of which are meeting or exceeding, the state diversion mandates.

The recycling programs and SRRE/HHWE implementation have met their goal. Unfortunately, the current reporting system does not accurately reflect that success. The County is in the position of allocating its resources to revise the base-year data and add provisions to the local disposal reporting system to ensure its future accuracy. Approval of this ADR will give the County the opportunity to rectify this situation while still demonstrating its intent to fully comply with state mandates and laws.

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.

Attach additional sheets if necessary.

**County of Orange Unincorporated
Alternative Diversion Requirement Application
Section IV-B Goal Achievement**

Program Type	New or Expanded	Description of Program	Funding Source	Date Fully Completed	Estimated Percent Diversion
1000-SR-XGC	Note: This is a currently existing program that contributes toward achieving the 18% diversion rate set forth in the ADR. When the County has revised its disposal tracking system and has an accurate diversion level calculation, new and/or expanded programs will be considered/implemented	<u>Xeriscaping/grasscycling</u> - The County partnered with CIWMB and other agencies to implement the Landscape Management Outreach Program targeting large green waste generators. The program is educating landscapers and property managers in techniques for source reduction and diversion of green waste. Grasscycling is strongly encouraged and practiced in county maintained turfs and school districts. The county grasscycles on 1000 acres yielding 65,000 tons of grass recycled, and continues to promote grasscycling through readily available literature.	Enterprise Fund CIWMB Grant Funds Orange County Water District Funds	Ongoing Program	Note: the County's disposal tracking system is flawed and is reporting inaccurate diversion rates for the unincorporated County. The County has no estimate of program specific data at this time. Rather, the County is allocating its resources to completing the ADR submittal based on state calculations and redesigning the disposal tracking system to accurately reflect the performance of the current programs.
1010-SR-BCM	See Note in this column on first page	<u>Backyard and onsite composting/mulching</u> - The County partnered with local cities to provide composting demonstrations. The County's parks' division uses mulching mowers on greenbelts and in regional parks. This mulch is applied to local hiking trails. The County operated James Musick Jail facility devotes two acres towards on-site composting and is considering expansion of composting program to include food waste from other county facilities. In addition, the County public works department mulches green waste.	County General Fund Enterprise Fund	Ongoing Program	See Note in this column on first page
1020-SR-BWR	See Note in this column on first page	<u>Business waste reduction program</u> - the County partnered with cities to plan and implement a business waste reduction workshop (Don't Throw Your Profits Out With The Trash Workshop). In conjunction with the workshop, the County produced a business waste reduction video entitled "Trashnet". The video was distributed for	Enterprise Fund	Ongoing Program	See Note in this column on first page

Program Type	New or Expanded	Description of Program	Funding Source	Date Fully Completed	Estimated Percent Diversion
1020 – SR-BWR Cont.		use by the cities and local cable television. The County and its contracted haulers continue to offer business assistance in waste reduction and recycling. On behalf of the County, a contracted waste hauler for the unincorporated area hired an environmental consulting firm to provide technical assistance to businesses. Their work involves on-site waste reduction and recycling audits, identifying potential recycling and sources reduction possibilities and providing business specific recycling resources. Over 100 businesses have been assisted through this program. Working with the County's Building Permit Section, the County's now requires all construction activity permits to report a recycling plan before the are given permits. Additionally, a brochure on proper C&D debris management and a listing of C&D processors was published and distributed by the County.			
1030-SR-PMT	See Note in this column on first page	<u>Procurement</u> – The County IWMD purchases recycled content office products to stimulate and maintain markets for recyclable materials, and has developed and implemented a procurement policy and procedure.	Enterprise Fund	Ongoing Program	See Note in this column on first page
1050-SR-GOV	See Note in this column on first page	<u>Government Source Reduction Programs</u> – The County reuses surplus items through inter-agency exchange and diverts items such as pallets, law books etc. County IWMD acts a model for local cities in the practice of two-sided copying and e-mail document distribution and communication. The County sponsored a CIWMB presentation on the Board's web-site for city recycling coordinators to reduce the mailing of hard copy materials. The County encourages all departments to implement source reduction activities in their own disciplines. For example, the County's Road Department started refurbishing damaged metal street signs and recycling the metal when the signs couldn't be refurbished. On-line systems are extensively used such as e-mail and data on intranet sites. The countywide newsletter is distributed via the County intranet, which results in extensive paper savings. Additionally, the County is going	County General Fund Enterprise Fund	Ongoing Program	See Note in this column on first page

Program Type	New or Expanded	Description of Program	Funding Source	Date Fully Completed	Estimated Percent Diversion
1050-SR-GOV Cont.		"paper-less" (relying on electronic information exchange) in many areas of its daily business. Examples of this move to reduce unnecessary paper use include: all RFPs, RFQs and RFBs are let via internet rather than publishing and mailing. Rideshare surveys, job applications, class registrations, memoranda of understanding, classification and salary information, training classes and much more are handled through the County's internet, intranet and e-mail systems.			
1060-SR-MTE	See Note in this column on first page	<u>Material Exchange/Thrift Shops</u> – The County promotes the CIWMB Calmax program and other waste exchange programs to encourage reuse. There are many thrift shops throughout the County available to residents to drop-off material for reuse.	Enterprise Fund Non-profit Funds	Ongoing Program	See Note in this column on first page
2000-RC-CRB	See Note in this column on first page	<u>Curbside Residential</u> – Curbside recycling programs are provided to all unincorporated residents through three contracted waste haulers. The County has expanded its programs to provide additional recycling capacity and weekly collection. Green Waste Collection was added and residents were given a cart for trash. The expanded program also allows resident to recycle more types of materials including additional paper fibers.	Waste Collection Fees	Ongoing Program	See Note in this column on first page
2020-RC-BYB	See Note in this column on first page	<u>Residential Buy-Back</u> - The County has several buy-back centers available for residents to drop off materials for redemption value.	Dept. of Conservation	Ongoing Program	See Note in this column on first page
2050-RC-SCH	See Note in this column on first page	<u>School Recycling Programs</u> – Schools in the County participate in recycling education. The County hosts field trips to the Landfills. Schools in the unincorporated areas participate in recycling programs.	Enterprise Fund	Ongoing Program	See Note in this column on first page
2070-RC-SNL	See Note in this column on first page	<u>Special Collection Seasonal (regular)</u> – Christmas Tree and Telephone Book Recycling occur throughout the County.	Enterprise Fund	Ongoing Program	See Note in this column on first page
2080-RC-SPE	See Note in this column on first page	<u>Special Collection Events</u> – The County issues press releases on behalf of recycling and reuse programs. These include public service announcements to encourage the use of the Household Hazardous Waste Exchange Programs. The County works closely with waste haulers to describe the	Enterprise Fund	Ongoing Program	See Note in this column on first page

Program Type	New or Expanded	Description of Program	Funding Source	Date Fully Completed	Estimated Percent Diversion
9000-HH-PMF Cont.		Centers located in the cities of Anaheim, Huntington Beach, Irvine and San Juan Capistrano. These are permanent regional facilities designed to provide safe collection and disposal for household hazardous waste for all Orange County residents. A new state-of-the-art HHW facility will be constructed in 2003 to replace the existing facility located at the Prima Landfill in San Juan Capistrano. Its location will be closer to the landfill entrance making it more convenient for the public to utilize it.			
9030-HH-WSE	See Note in this column on first page	<u>HHW: Waste Exchange</u> - The County implemented a Household Hazardous Waste "Stop and Swap" program at 3 of its 4 Household Hazardous Waste Collection Centers. This program allows Orange County residents to take home previously collected household hazardous waste products free of charge, which saves the resident from having to buy new product and keeps the waste from being disposed. A 4 th Stop and Swap will be included as part of the new HHW facility at the Prima Landfill.	Enterprise Fund	Ongoing Program	See Note in this column on first page
9040-HH-EDP	See Note in this column on first page	<u>HHW: Education Programs</u> - The County has developed a comprehensive education program to inform residents about household hazardous waste and its proper disposal. This includes: brochures (English, Vietnamese & Spanish translations) articles in newspapers and waste hauler newsletters, video production and distribution to cities and cable networks, utility bill inserts and implementation of a Haz Mat hotline. The County consistently provides literature to the public, cities, fairs, schools county state and federal agencies as well as presentations upon requests.	Enterprise Fund	Ongoing Program	See Note in this column on first page

Programs Supporting Diversion Activities

Program Type	New or Expand	Description of Program	Date Fully Completed
Self-Haul Waste Characterization Study	New	The County plans to contract for a landfill-based waste characterization study of the residential and commercial self-haul waste stream at the three landfills to provide data to determine AB 939 compliance, if waste management practices need to be modified, and if financial incentives should be implemented to encourage additional recycling.	2004
Improvements to the Disposal Reporting System	Expand/ New	The County is in the process of administratively auditing the system. With these results, the system will be enhanced and automated to increase reliability and decrease input error. Additionally, monthly inter-departmental meetings are being held to monitor the situation.	2004
Illegal Waste Detection Program	Expand/ New	The County, in conjunction with City of Brea, Brea Police Department and Taormina Industries implemented random self-haul survey inspections at the Olinda Alpha landfill to determine reporting inaccuracies and expose illegally entering waste. Follow-up survey inspections may be conducted as needed. Additionally, self-haul loads are now asked for a work location address to verify origin of waste. Two new signs have been designed and placed to inform self-haulers of the ordinance that bans on out-of-county waste and explains why the County asks where the waste originates. The sign regarding origination of waste has been placed at all 3 landfills.	2003
New Base Year Generation Study	New	In 2003, the County plans to contract for a New 2002 Base Year Study with the goal of establishing more accurate and current information from which to gauge AB 939 compliance.	2004

Program Type	New or Expanded	Description of Program	Funding Source	Date Fully Completed	Estimated Percent Diversion
2080-RC-SPE Cont.		public service announcements through the waste hauler			
3000-CM-RCG	See Note in this column on first page	<u>Residential Curbside Greenwaste</u> - The County implemented a source separated green waste program with weekly collection for the residential unincorporated areas.	Waste Collection Fees	Ongoing Program	See Note in this column on first page
3030-CM-CSG	See Note in this column on first page	<u>Commercial Self-Haul Greenwaste</u> - Landscape contractors or businesses are self-hauling a majority of the commercial green waste directly to the landfill sites. The County offers landfill exemptions for clean dirt, asphalt, and shredded green waste.	Enterprise Fund	Ongoing Program	See Note in this column on first page
3040-CM-FWC	See Note in this column on first page	<u>Food Waste Composting</u> - Grocery markets in the unincorporated area recycle a notable amount of produce. The Produce was recycled through the services of Community Recycling and Resource Recovery.	Grocery stores fund this program	Ongoing Program	See Note in this column on first page
4030-SP-WHG	See Note in this column on first page	<u>White Goods</u> - County has a contract with a salvaging company to remove and divert white goods and scrap metal from the material in the public dumping area at the landfills.	Enterprise Fund	Ongoing Program	See Note in this column on first page
4040-SP-SCM	See Note in this column on first page	<u>Scrap Metal</u> - A program is in place at the landfills to recover aluminum and tin from the wastestream.	Enterprise Fund	Ongoing Program	See Note in this column on first page
4060-SP-CAR	See Note in this column on first page	<u>Concrete/Asphalt/Rubble</u> - Crushed concrete and asphalt are diverted from the wastestream and collected to create roads and the rainy season wet deck at each of the landfills. The County also promotes asphalt and rubble recycling by giving exemptions for clean broken asphalt taken to the landfills. The County promotes C&D recycling through development and distribution of brochures.	Enterprise Fund	Ongoing Program	See Note in this column on first page
5000-ED-ELC	See Note in this column on first page	<u>Education: Electronic</u> - The County developed and regularly updates a web-site (OCLandfill.com) to provide the public with information on the services provided. It includes information about the landfills as well as specific information about recycling in the cities and unincorporated areas. It provides information about reducing, reusing and recycling and it contains links to the CIWMB and EPA web sites. The web-site is also designed to allow residents and businesses to order CIWMB and	Enterprise Fund	Ongoing Program	See Note in this column on first page
